MILBURN

Blind Chaplain of the House Prays For Struggling Cuba's Success.

And the Representatives Applaud Him When He Gets Through.

Other Doings In Both Branches of the National Congress.

Washington, Jan. 17.—There was a most unusual demonstration at the opening of the session today. The blind chaplain, whose name is American, has frequently occasioned remarks in the House, and the "success of her battle for independence," and when he concluded, the sentiments he had expressed were given a hearty round of applause. On motion of Mr. Gamble, a bill was passed granting to the city of Chamberlain, S. D., the right to use American Island in the St. Lawrence reservation. The president's special message urging the necessity for immediate legislation to extend the limit of time allowed the government in which to bring suits to annul grants of public lands was laid before the House and referred to the committee on public lands. The House then went to committee of the whole for the consideration of the pension appropriation bill. The general debate on the bill closed yesterday and the bill was today open to amendment under the five-minute rule.

GROVER'S MESSAGE.

Urging Immediate Legislation to Annul Land Grants.

Washington, Jan. 17.—The president today sent a special message to the House urging the necessity for immediate legislation to extend the limit of time within which suits can be brought by the government to annul grants of public lands. He called attention to the numerous complications that have arisen between the government and the private landholders, and urged the necessity for immediate legislation to extend the limit of time within which suits can be brought by the government to annul grants of public lands. DEEP WATERWAYS.

United States Branch Busily at Work.

Detroit, Mich., Jan. 17.—The United States branch of the deep waterways commission has been steadily at work all the week examining charts, routes, etc. Eight members of the Lake Carriers' association were called before the committee and gave information, chiefly regarding difficulties to be encountered in connection with the proposed enterprise. Their testimony was taken by a stenographer.

VENEZUELAN COMMISSION.

Meets Tomorrow—Probable Appointment of Secretary.

Washington, Jan. 17.—Owing to Mr. Justice Brewer's engagement on the supreme bench, the Venezuelan boundary commission has not been able to make much progress since its adjournment last Saturday. Arrangements have been made, however, for a meeting in temporary quarters in the main building. The meeting probably will be held tomorrow.

MORRISON'S CHANCES.

His Presidential Boom Has Taken a Fresh Start.

Chicago, Jan. 17.—The Post today says: Prominent local Democratic politicians, representing both the silver and gold wings of the party, unanimously declare that the location of the Democratic convention at Chicago has vastly improved the chances of Col. William H. Morrison, and has made it possible, and makes him at once the most prominent among candidates.

NAT GOODWIN SUED.

A Chicago Reporter Wants \$50,000 Damages.

Chicago, Jan. 17.—John N. Maxwell, a reporter on the Chicago Tribune, filed a suit today against Nat Goodwin for \$50,000 damages. He claims that Goodwin's play, "Ambition," belongs to him and that Goodwin has stolen it. The play, Goodwin named the villain John N. Maxwell.

TO CHECK BICYCLES.

Mr. Towne Has a Bill Making Them Baggage.

Washington, Jan. 17.—(Special to The Herald.)—Representative Towne, at the request of constituents, will introduce a bill making bicycles baggage upon interstate railroads. While many roads at the present time allow bicycles to go free, others make regular freight charges upon them, and the object of Mr. Towne's bill is to permit wheelmen to check their machines through the same as they would a trunk.

MURDERED FOR INSURANCE.

Crime Revealed By a Love Sick Woman.

Fort Worth, Texas, Jan. 17.—Yesterday Mrs. Lucy Chambers, who had a lover a railroad man of this city, committed suicide and left letters which revealed details of a horrible murder committed several months ago. She charges that the man who was her lover, and a woman whom her husband's life there was \$2500 insurance, conspired to and did murder by poisoning the woman's husband.

PREMIER RHODES TALKS.

Londoning to a Special from Cape Town, Cecil Rhodes, the former premier of Cape Colony, was in London, previous to sailing for England and said: "I am not a coward. I shall not resign my seat in parliament, but shall meet my detractors. I shall be satisfied if the world is made a better place by the efforts of officers who are investigating and arrests will follow."

CAMPOS

A Crisis Is Evidently Near In His Tenure of Office.

Havana Papers Reject His Censorship and Openly Attack Him.

Captain General Has Aged Perceptibly and Is Worn Out.

Havana, Jan. 17.—The situation here today is critical. It is the general opinion that Gen. Campos will either resign today or be recalled to Spain very shortly. The agitation against his conduct of the military operations against the insurgent forces has been steadily growing for some time past, and although the Spaniards have loyally stood by him, the wholesale destruction of property and the failure of the Spanish troops to bring the enemy to a decisive encounter have brought affairs to a climax and there seems to be only one way out of the difficulty.

BOUND FOR BERMUDA.

But Uncle Sam May Enter a Protest.

London, Jan. 17.—The press association referring to the report from Portsmouth that the flying squadron's destination, after leaving Bantary bay in Bermuda, was to be at Bermuda, says: It is stated at Portsmouth, though not officially confirmed, that the destination of the flying squadron after leaving Bantary bay in Bermuda, was to be at Bermuda. He looked very old and utterly worn out with anxiety. He was respectfully saluted by everybody but there was no mistaking the eagerness of the manner of the people against him.

FRESHMEN SUSPENDED.

Entire State University Class at Minneapolis.

Minneapolis, Jan. 17.—The whole freshman class in the medical school at the state university was suspended this morning. It was through a paper fight held in the recreation room of Dr. G. A. Hendricks. When the class arrived the doctor was not there, but in a seat was a hand bill advertising some "variety event." One enterprising youth made a comment upon the hand bill, and the doctor, who was sitting in a chair, arose and said: "The idea took like wildfire, and in a few minutes the hall was filled with students. The excitement soon spread to the theater, and so the students gradually gravitated down toward the professor's desk, and when he arrived it was fairly buried. Dr. Hendricks was so incensed that he refused to lecture, and later Dean Millard announced that the entire class was suspended indefinitely. After a class meeting, the dean had a conference with the medical school officers and President Northrup, however, it was agreed that the class might come back to work next Monday.

National Democratic Convention Will Be Held There July 7.

It Took Twenty-Eight Bal-
lots To Secure a
Location.

**St. Louis the Only Dangerous
Competitor of the
Windy City.**

Washington, Jan. 17.—The Democratic national convention will be held at the city of Chicago on July 7. That was the decision reached last night by the national Democratic committee after an interesting and at times exciting session, which continued until 11 o'clock at night. There was considerable difference of opinion as to the time of holding the convention. One proposition, advanced by Allen W. Tamm, of Ohio, who held the proxy of the New Mexico member, was to hold it June 7, two weeks before the Republican convention, and the other by Hugh Wallace, of Washington state, was to hold it July 7. The committee decided upon the latter date by a vote of 22 to 18. The main interest of the convention is in the choice of the convention city. For this honor there were four applicants, Chicago, St. Louis, Cincinnati and New York. Thirty minutes were allowed each city in which to present its claims. The speeches, made by distinguished citizens in each instance, were of a high order of excellence and interest. The balloting began about 6 o'clock in the evening, and from the first a long and bitter struggle was indicated. The first ballot resulted: Chicago 6, Cincinnati 11, St. Louis 19, New York 14. There was no change except a slight fluctuation of a vote or two until the tenth ballot, when Chicago began gradually to increase her vote at the expense of New York. At the twentieth ballot New York's strength was rapidly disappearing, her vote going almost bodily to Chicago. But St. Louis, which had tenuously clung to her nineteen votes, also captured several of Cincinnati's votes, and on the thirty-first ballot she had New York by one vote. On the last ballot, the twenty-ninth, which was taken shortly before 11 o'clock, the four remaining votes of New York were thrown to Chicago and she obtained the necessary plurality. Senator Bruce voted for Cincinnati at the last.

An examination of the vote by states showed that St. Louis had practically the solid support of the silver states in the committee. Minnesota voted for Chicago on the final ballot.

The national committee adjourned without electing the sergeant-at-arms and other officers, who probably will not be chosen for some weeks.

FEELING IN CHICAGO.

**Local Politicians Would Like
an Earlier Date.**

Chicago, Jan. 17.—News of the selection of Chicago as the place to hold the national Democratic convention was received locally with no manifestation of excitement. Strangely enough there was no flood of telegrams praising the selection, but rather a number of telegrams expressing regret for the choice. The Chicago Chronicle-Democrat, in its local columns today, expressed some disappointment among local Democrats at the action of the national committee in fixing the date for July 7. In view of the fact that the Republican convention will be held June 16, it was felt that the Democratic committee should have followed established precedent and called the convention for July 15. It was also felt that the date of July 7 would have a stimulating effect upon the local political situation. Some of the managers said last night, the location of the convention in Chicago would have the effect of holding the candidates in St. Louis today. The Democratic party in St. Louis today is in a state of confusion, and it has always been the rule for the party in power to hold its convention there. It is like the convention on the part of the Democrats to hold their convention this year after the Republicans. I am gratified to know that we will have the convention in this city and the local Democrats will do all they can to make things agreeable for the thousands of

Soaps and Washing Compounds Prejudicial to Health--Kirk Calls a Halt and Demands That the Health Authorities Make an Investigation--The Disease Spreading Rapidly.

From time to time Messrs. James S. Kirk & Co. have called the public's attention to the dangerous character of many soaps, washing preparations, soap powders, etc., that are being sold, which are not only injurious to health, but that once we have called the attention of the public in these columns to the danger there is no reason to believe that the system of getting an impure piece of soap or a dangerous washing preparation of one sort or another, there are still some soap makers, etc., being offered for sale of a most dangerous character.

We, therefore, feel it our bounden duty to warn the public and to call the attention of the proper authorities to this outrage and crime of which an innocent public are the sufferers. There is no reason why any one should run a particle of risk of getting an impure piece of goods, if they will but take the precaution to see that the name of James S. Kirk & Co. is stamped upon every label or package they purchase.

Every particle of fat that goes into the manufacture of our soap is carefully inspected in a laboratory, celebrated all over the country for its completeness. Let a piece of rank tallow make its appearance in Kirk's laboratory and back it goes to the house from which it was purchased, unless it can be made into a family washing, every ingredient that goes into its make up is as pure as crystal. The same policy of this house goes with every package that it is not only the best and most advanced washing powder so far known to science, but that it is a pure and harmless article.

Why run the danger of using a soap or powder prejudicial to health, and that rots and ruins the clothes, when

It might be that I have a very interesting convention and I have no doubt that the delegates will be able to agree upon a flag and a uniform that will represent the country. The convention will doubtless be held at St. Louis, but that is a matter to be determined by the national Democratic committee. The delegates who were to Washington to select the place of the convention, and the delegates who were to Chicago to select the place of the convention, are both of them in the city. ALASKAN POLITICS.

Delegates to the National Republican Convention.

Seattle, Wash., Jan. 17.—The steamer Topeka brings the following news: Judge W. Kelly, United States district judge at Wrangell, came down on the Topeka from Wrangell to Metlakatla to give several civil suits and to attend to his business. His term expires in May, but he mentioned during the voyage that he would resign in March. There is considerable political excitement in Juneau and Alaska generally in regard to the election of delegates to be sent to the Republican convention.

New York, Jan. 17.—A light engine ran into a crowd of car cleaners who were walking the track on the New York, New Haven & Hartford railroad at One Hundred and Forty-second street today, killing two women and injuring two other women and a man so badly that they will probably die. This is the third fatal accident of the kind in the last few days in New York and New Haven yards.

Lizzie Becker, 36 years old, the injured woman, Maria Druff, 65 years old, right leg cut off; Louis Yelder, of 44 West Forty-second street, both legs broken at the joints where the accident occurred the road runs through the heart of the city, and the accident is a high emblem of the danger to the public of the New York, New Haven & Hartford railroad.

The accident occurred at the intersection of the road and the street, and the engine struck the women and the man who were standing near the tracks. The engine was moving at a high speed and the women and the man were unable to get out of the way in time.

MARSHALL'S FUNERAL.

Impressive Ceremonies at the Governor's Burial.

St. Paul, Minn., Jan. 17.—The funeral of ex-Governor Marshall yesterday afternoon was perhaps the most impressive this city has ever witnessed. From 10 to 12 in the morning the personal friends of Governor Marshall were admitted to the residence of Mrs. Cathcart, 227 Goodhue avenue, where they had a last opportunity of looking at the venerable gentleman before he was taken to the house, but just before the funeral service was held at 2 p.m. The church was filled, not only with friends of Governor Marshall, but with officials, members of the various fraternal organizations, veterans of the war, and the Sons of the American Revolution.

A TENNESSEE MURDER.

Louisville, Ky., Jan. 17.—A special from Nashville, Tenn., says: A letter from Peyton's Lake, in Jackson county, brings news of a horrible double murder, committed near that place. Five masked men entered the house of Joseph Day, an old farmer, who was reputed to have money hidden away, and demanded the secret of his treasure.

WEST END

L. L. Marble of West Duluth Died Last Night of Heart Failure.

He Has Been Suffering From Typhoid Fever For Some Time.

Manufacturer's Bank Elected a New President and Other Officers.

L. L. Marble, one of the oldest and most esteemed citizens of West Duluth, died at the home of his father last night. The deceased, it is learned, was first attacked with typhoid fever, but the immediate cause of death was heart failure. Mr. Marble married on a real estate business here for a number of years, but for some time past has been in business in Duluth. His wife, it will be remembered, died about a year ago. The family had no children.

MANUFACTURERS' BANK.
The annual meeting of the directors of the Manufacturers' bank was held yesterday afternoon for the election of officers. The following were elected: President, W. H. H. Stowell; Vice President, W. H. H. Stowell; Cashier, W. H. H. Stowell; and other officers.

PHILLIPS & CO.

A woman never really knows the meaning of happiness and contentment until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most of all, the mother's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the digestive system. Dr. J. C. Cheney's Food and Health Prescriptions will cure all troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth and insures the health of both mother and child.

CHANDLER

Waupaca Skip Easily Defeated Griggs, of St. Paul. This Morning.

This Was in the Semi-Finals for the Duluth Jobbers' Trophy.

The Other Semi-Final Game Will be Played This Evening.

Yesterday's curling at the hotel did not lack in interest or a special nature at any time. There were a number of tough struggles for supremacy, and all day long there were crowds of interested spectators watching the games. The air was colder than on any day of the tournament, and the spectators had to frequently make a dive for the stoves in the waiting rooms to get warm. Occasionally a curler would run in to hanker up his cramped fingers at the line. A part of yesterday J. C. Myron, the lively secretary of the association, was in the waiting rooms, and there was little inactivity or idleness while he was there. Yesterday afternoon there were games in the hall medal contest, and in the consolation event. The evening in the hall contest completed the first draw and began on the second draw. One of the most interesting games was that between Harry Hurlon, Duluth, and Neil Smith, of Superior, in which a tie was played off in the sixteenth end, giving Smith one point up.

PISTONER SEMI-FINALS.
Last night there were games in four events, and one of them, the Pistoner, was brought down to the semi-finals, leaving the following rink to play for the trophy and three prizes: Frank Eason, Duluth, against J. McDermid, Winnipeg; Ron Smith, Duluth, against J. E. Jones, Portage; and W. W. Wainwright, Duluth, against J. E. Jones, Portage.

The game in this event which was watched most closely was that between Neil Smith, of Superior, and J. E. Jones, of Portage. Neither rink had been defeated before in the tournament, so each was determined to win. The game was even up several times during the evening, and there was a crowd of spectators about the ice nearly all the time. At the close McDermid won with a score of 14 to 12.

In the George F. Hall diamond medal contest one game in the second draw was played yesterday. In the first draw of the same contest the following games were played: C. B. Roberts, Milwaukee, 17; George F. Hall, St. Paul, 17; Charles McMillan, Duluth, 17; John Macdonald, Minneapolis, 17; George Dewey, Portage, 12; C. M. Griggs, St. Paul, 19; Thomas McCaffrey, Neepawa, 12; J. W. Thompson, Portage La Prairie, 14; Harry Hurlon, Duluth, 13; Neil Smith, Superior, 14.

Frank Scott, Waupaca, 18; D. J. Black, Duluth, 18; S. S. Chandler, Jr., Waupaca, 12; D. Morrison, Duluth, 10; R. J. Macdonald, Duluth, 17; J. C. Wall, Milwaukee, 11; Dr. W. D. Kelly, St. Paul, 12; Tom Kelly, Winnipeg, 12.

In the consolation event the following games were played: H. S. Mason, Duluth, 12; F. L. Patton, Winnipeg, 16; Alex. McCulloch, St. Paul, 10; James Calhoun, Superior, 17.

LAST EVENING'S GAMES.
Last evening's games were played in the Pistor, Hall, consolation and beginner's events. In the latter event a prize was awarded against A. N. Smith, the Superior skip, on the ground that he was not a legitimate player. He was suspended and his opponent in the second draw, J. A. Dewey, of Duluth, went forward to meet William Mathieson, of St. Paul, in the final in the beginner's contest. The final in the Pistor event was set for this morning.

In the third draw of the Pistor the following games were played last night, bringing the contest down to the semi-finals: Frank Stout, Waupaca, 9; Frank Eason, Duluth, 12; E. O. Nevelson, St. Paul, 13; J. McDermid, Winnipeg, 13; Tom Smith, Duluth, 18; Thomas McCaffrey, 11; Sam Nelson, Chicago, 9; J. E. Jones, Portage, 16.

In the second draw of the Hall contest the following games were played: C. B. Roberts, Milwaukee, 14; F. L. Patton, Winnipeg, 16; Charles McMillan, Duluth, 17; James Calhoun, Superior, 12; Alex. McCulloch, St. Paul, 10; Mark Fortunate, Superior, 12; W. Macdonald, Superior, 17; E. S. Palmer, Duluth, 12.

John L. Surveant, Waupaca, 15; J. W. Thompson, Portage La Prairie, 15. In the consolation of the following games were played: S. S. Chandler, Jr., Waupaca, 18; G. Hoffman, Winnipeg, 12; Dr. Portin, Duluth, 16; George Dewey, Portage, 15.

In the beginners' semi-finals: John Macdonald, Minneapolis, 12; William Mathieson, St. Paul, 14. The annual meeting of the Northwestern Curling association was postponed from last evening to 7 p. m. tonight, when it will be held at the Spaulding.

CHIGGS DEFEATED.
This morning there were games in the Duluth Jobbers' union, Hall, St. Paul Jobbers' union, consolation and international events. The most important of the course was the game between Chandler and Griggs, of St. Paul, in the semi-finals for the Duluth Jobbers' union trophy. The game was won by Chandler's rink, and plays for the trophy against the winner of the game between Kelly and McDermid, of Winnipeg, which will take place tonight.

The game between Chandler and Griggs was a good one, though it was uphill work all through for the latter rink. At one time they were eleven points down, but they steadily rallied until at the beginning of the fifteenth end Chandler was but three up. At one time in this end it looked as though Griggs would win out after all, but an unlucky shot sent the St. Paul skip flying, and he made but two points. The score was 14 to 15 in favor of Chandler. Kelly, of Winnipeg, will be an interesting event. McDermid has not yet been defeated, and Kelly is one of Winnipeg's strongest rinks.

Belief That the Venezuelan

By This Course England Will
Avoid Recognition of
Monroe Doctrine.

Washington, Jan. 18.—The statement from London that the British flying squadron was not intended for Venezuelan waters was received with visible relief in naval circles, but in the state department it was evident that it had been anticipated, and it is surmised that Ambassador Layard had already communicated directly with the department on the subject and given satisfactory assurances as to the intentions of the British government.

The impression is strengthening that the Venezuelan matter is soon to be settled or rather put in the way of settlement, (for the execution of the details of the project will occupy much time in the course of a few weeks or months at furthest, and that too on the lines indicated in the recent Associated Press dispatches from Washington.

OLD SLAVEOWNER DEAD.

Last Survivor of the Famous
Christiana Riots.

Lancaster, Pa., Jan. 18.—James M. Hopkins, an old time slave master and politician, who was the last man living who figured in the famous Christiana riots, died at his home at Conowingo, aged 85. In 1861 he ran for congress on the Democratic ticket against Thaddeus Stevens and gave the great congressman the hardest fight in the latter's congressional career.

The first conflict and bloodshed under the fugitive slave law passed by congress in 1850, occurred at Christiana resulting in the death of a Maryland slave owner named Edward Gorsuch, and the wounding of another of the party, and thirty-seven others who assisted the slaves were arrested for treason.

POPULIST CONVENTION.

National Committee Still Selecting
a City.

St. Louis, Jan. 18.—The hearing of representatives of the different cities which are working to secure the national Populist convention which will meet on July 22 next, was continued this morning, when the national committee assembled. Chicago was the first to present its claims. As the chairman of the delegation from that city had not then appeared, D. M. Pulcifer, of Arkansas, spoke for the Populist city. He was followed by Dr. H. Taylor, Gen. Smith and P. J. Schuler, expressed the business men of Chicago. They argued that because of the location, its facilities for accommodating large crowds, and the wide circulation of its newspapers, Chicago was the only city in which to hold the Populist national convention. A choice of any of the large halls for which that city is noted was offered, and while they were not prepared to guarantee any sum of money, they offered at least \$25,000 could be raised for the Populist cause if they were given sufficient time to collect it.

New York, Jan. 18.—A dispatch to the World from Boston says: A naval officer who has just returned from Washington says: "There is absolutely reliable authority for the statement that the administration has proposed a plan of campaign against Turkey to force the government of that country to comply with the demands of the United States for indemnity for injuries to American property and for the future protection of American citizens within her domain. The authorities do not deny this statement, though they have not hesitated to say that no orders whatever have been issued to the vessels of the navy for carrying out this plan into effect."

"Upon excellent authority it is stated that the department of state recently entered into correspondence with the foreign powers and that some of them will

CLAIM COLEMAN'S ISLAND.

The Canadians Claim Part of
St. Louis County.

Washington, Jan. 18.—(Special to The Herald.)—Representative Towne has sent to Representative Heatwole a copy of a letter from Frank Gardner, a Canadian, of Rat Portage, Ont., regarding Coleman's Island, Lac Seul, which was sold by the United States government, and which is taxed by St. Louis county. Gardner claims that the island is part of the territory of the Ontario government as part of its territory. Congressmen Towne recommends that Gardner's letter should be embodied in Mr. Heatwole's report upon the boundary question.

In his letter to Mr. Towne, Gardner states that in 1852 he bought several hundred acres of land on Coleman's island, supposed to be in St. Louis county. He paid the United States for this land. He has also paid the county taxes since 1882. He states that the Ontario government has surveyed this land and claims it, and that if he attempts to cut any of the pine timber upon it the Ontario government would confiscate his timber. Gardner says that he has written to both the state and interior departments about this matter, but can get no satisfaction.

Congressman Heatwole has sent to the state department for all the information they have upon this subject, and the matter will be fully considered at the next meeting of the sub-committee, of which he is chairman.

CAUGHT

Murderers of Samuel De
Mars Found Near Biwabik
Apprehended.

Either Bill Varello or Joe Sou-
ler Coolly Shot Him
Down.

People at Biwabik Were En-
raged and Talked of
Lynching Them.

Assistant County Attorney McPherson returned on the noon train from Biwabik today, bringing with him Bill Varello and Joe Souler, charged with the cold-blooded murder of Samuel De Mars, an old man who was found dead in the woods, a mile north of Biwabik, Monday, shot through the arm, neck and body. The men were lodged in the county jail. Immediately on the discovery of the body, Deputy Coroner Coons telegraphed County Attorney Arbury, and Assistant McPherson was sent up to solve the mystery of the murder. In this he was successful, aided by the indefatigable efforts of Marshal William Wall and Deputy Coroner Coons. He arrived at Biwabik Wednesday, and spent that evening and all day Thursday with the coroner's jury, who were investigating everyone who lived in the locality.

About 11 o'clock Thursday night Pete Porges, a laborer, called on the attorney and informed him that on the Saturday preceding, Joe Souler had proposed to him to do up the old man, who was supposed to carry considerable money on his person.

ARRESTED SOULER.
On information, Souler, who is but 17 years old, was arrested, and closely questioned. Unable to stand the examination, he broke down and confessed that Bill Varello, a 19-year-old boy, had committed the murder, and that he had witnessed the occurrence.

According to his story Souler had gone over to Varello's house Saturday afternoon and the two boys procured a rifle and went up into the woods. Varello had the gun and shot at a partridge near where De Mars was working. He failed to kill the bird and Souler took the gun and shot his head off. Varello grabbed the gun and remarking: "Draw goes his mouthhouse," shot and aimed De Mars in the back. Then he went up and rifled the dead man's clothing after firing at the body with a revolver.

MADE A CONFESSION.
Varello was at once arrested and made a confession in which he related the circumstances in the same manner as Souler except that he claimed Souler did the shooting. He declared that the other boy had used the expression "draw goes his mouthhouse."

Samuel De Mars, the murdered man, resided with a neighbor named Revellie and Porges lived in the same home. Varello lived in a neighboring shack and Souler was a chum of his. Neither of the boys was related to the old man.

The episode of Biwabik were in a high state of excitement last night and if they had known where the prisoners were, a lynching would have been inevitable. The officers had taken the two boys some distance away from the town fearing an uprising and it was well that they did so.

SCANDIA'S KING.

Oscar Personally Opens the
Reichstag at Stockholm.

Stockholm, Jan. 18.—The reichstag was opened today by King Oscar in person. In the speech from the throne his majesty said he heartily desired that all causes for discord between Sweden and Norway should be permanently set aside, in view of events on every side which made it more necessary than before for the security of the liberty and independence of the Scandinavian peninsula, that both nations should hold fast together.

The king added that the large surplus in the treasury would permit of the reduction of the military expenditure, and for the resources to be provided for the maintenance of the country's neutrality in the event of warlike developments.

KEMPSTER VINDICATED.

District Court Reinstates Mil-
waukee's Health Officer.

Milwaukee, Wis., Jan. 18.—Dr. W. Kempster is health commissioner of Milwaukee, unless the supreme court reverses the decision of Judge Johnson, of the circuit court. Last spring the common council voted him out of office after an investigation of the management of the office during the smallpox epidemic.

The decision is a complete vindication of the health commissioner. Besides deciding in favor of Dr. Kempster, Judge Johnson ordered that the costs of the proceedings be taxed against L. J. Mueller and Henry G. Fischer, who preferred the charges which called for the investigation. The costs will amount from \$3000 to \$5000.

THE STANDARD OIL MATCH.
Philadelphia, Jan. 18.—Announcement is made of the engagement of Miss Mary Warden, of this city, to Charles Mackness, of New York and Cleveland. The father of the prospective bride, the late W. G. Warden, was one of the founders of the Standard Oil company, and Mr. Mackness' father was an associate of Rockefeller, Plager and Payne in its operation.

Captured a Medal.

Mrs. John Weston, of Duluth, captured a gold medal at the Atlanta exhibit which was a stained glass window design. Mrs. Weston is the wife of Mr. J. H. Weston, of New York, and designed the St. Louis county exhibit in the Minnesota building at the World's fair.

SOCIETY

But One Month Remains Before the Opening of Lenten Season.

The Assembly Will Give Its Monthly Dancing Party Next Friday Evening.

Mozart Society's First Concert Next Week—Other Social Affairs.

The Lenten season is but a month away, Ash Wednesday falling on Feb. 19 this year. In spite of this there is already a growing desire in social circles to escape a few informal affairs such as skating and shooting parties and similar diversions. The large amount of sickness has much to do with the indifference now prevailing and it is more than probable that there will be very little social activity during the balance of the winter.

The Assembly will relieve the monotony somewhat by its regular monthly party, which will be given on Friday evening next at the Spaulding.

To cleanse, purify, and beautify the skin, scalp, and hair, to allay itching and irritation, to heal chafings, excoriations, and ulcerative weaknesses, to speedily cure the first symptoms of torturing, disfiguring skin and scalp humors, nothing so pure, so sweet, so wholesome, so speedily effective as warm baths with CUTICURA SOAP, gentle applications of CUTICURA (ointment), and mild doses of CUTICURA RESOLVENT.

Finals.

Business Meeting of the
Association Was Held
This Morning.

The hockey games of yesterday afternoon and yesterday evening brought several of the events down to very narrow limits, and one of them, the beginners' event, was finished. Some of the best are getting bad, and several of them have been abandoned altogether. Last night the driving snow storm drove all outside games of the ice, and one which was started was put off until this morning.

Another tie, one in the international playdown, was cut short at eight ends. Yesterday's games played have with Duluth in the Pfister work. Both of the rinks had in the semi-finals were defeated badly, and this knocks for chances for trophies, unless either Esso or Macdonald pull out of the consolation, for that is the only one Duluth is in at all.

Duluth got a trophy, however. Yesterday afternoon the finals in the event for beginners was played between J. A. Dewey, Duluth, and William Mathieson, St. Paul, and Dewey won by a score of 12 to 4. The game was a lively one. Dewey had a good lead from the start, but it was pulled down near the close, but it was pulled down near the close, but it was pulled down near the close.

DELAYING

City Authorities Think Progress on Water Improvements is Slow.

Water Company Notified to This Effect By the Health Officer.

Council Was Long Ago Informed of the Lakeside Intake Condition.

The health board and members of the investigating committee are of the opinion that the work of putting in the iron tank will and other changes at the Fourteenth avenue east pump house have been unnecessarily delayed. Capt. Homan, who has the contract for laying the intake pipe extension, reported that his share of the work was nearly completed and would be finished before the gang on shore were anywhere near through.

When the work of excavating and rock blasting for the new well was commenced it was estimated that about ten days would be required to carry out the suggestions of the committee. Now several weeks have elapsed with but little progress recorded, in the opinion of the committee. A note calling the attention of the gas and water company to the unnecessary delay was forwarded this morning by the health officer. The company has not yet replied. Unless something is done to push the work further along, by the council may be necessary.

COINCIDENT WAS INFORMED.
The reporting of the leak in the Lakeside intake reveals the fact that the pipe was examined in July, 1894, by a committee appointed by the council in response to a petition from J. K. Persons and others. This investigation was completed a few weeks ago by Alderman Harwood and City Clerk Richardson looked up the report. It is almost precisely similar to the report of the last committee and finds as follows: That the intake pipe is at the foot of a ravine which drains a large portion of Lakeside and carries off the sewage of a considerable surface drainage and that thirty houses and one large school house empty their sewage into the ravine above mentioned. In addition it was reported that the mouth of the pipe is not thirty feet from the shore and in three feet of water and that repeated protests had been made to the company by the petitioners without avail.

The members of the committee were C. E. Evers, William Kelly and J. W. Nelson. Among the witnesses examined were the company, D. A. Reed, R. R. Spencer and J. C. Carey, all residents of the locality. The committee recommended action be taken to remedy the defects pointed out. The report was referred to Page Morris, at that time city attorney, and for some reason was never acted upon.

New Partnership.
Col. C. H. Graves and Donald R. McLeannan have formed a co-partnership under the firm name of C. H. Graves & Co., and will conduct a real estate, mortgage, loan and insurance business, beginning today. Col. Graves is one of Duluth's oldest residents, having lived here since 1880. He has been several times selected by the people to fill honored positions. Twelve he was chosen mayor of the city and twice to the house of representatives from this district. He was chosen speaker of the house at one term.

Donald R. McLeannan is a young man who has grown up in Duluth and is known by all. He has been connected with the insurance department of Stryker, Manley & Buck for a year or more and has all the qualifications necessary to make a most successful insurance man. He is now engaged in this business here with the Duluth State company for several years.

The new firm will undoubtedly prove very successful.

Academy of Medicine.
The International Academy of Medicine in its monthly session at the Scindling last evening, talked learnedly upon medical subjects. The discussion of the evening was on water supplies. A paper was read by Dr. J. M. Tolleson, of the medical corps of the army, who is a physician at the military academy. He said that it was difficult to locate the germ in water, and that though they were known to be there, and to avoid all risks he advised the use of electrical or chemical processes. Dr. M. E. Groat, of Superior, advised going back to the foundation of the water supply, the water plant and taking measures preventive of further pollution.

ELECTRIC

Dan A. Palmer Gives Some Interesting Facts Regarding the Telephone.

Twenty Years Since Bell Showed Great Value of His Invention.

Impediments Which Caused the Slow Development of the Telephone.

The following paper upon the subject of the telephone was read before the electrical class in the city by D. A. Palmer, the electrician of the fire department.

Long distance telephony has been developed wonderfully in the United States. During the last nine years communication by this means has been extended from Maine to Minnesota, east and west, and south to Maryland and Kentucky. As a result, Edison brought out his very excellent compressed lamp black transmitter. This was the first step toward the introduction of telephone exchanges, which was greatly increased two years later, by the adoption of the style of transmitter known as the Blake, which is a modified form of a Hughes microphone.

During Edison's experiments he found it desirable to introduce into his device an induction coil containing a short, thick primary wire of practically no resistance, and a second, containing a great many turns of smaller wire. This was an important discovery, and is today an indispensable adjunct to nearly all forms of battery transmitters. Your lesson paper leaves the description of the induction coil and its relation to the telephone circuit to a future lesson, which I hardly dare anticipate. However, I will explain at this time that the primary circuit (in usual practice) has no electrical contact with the line, whatever, and the secondary, with the coil in the receiver, is the continuous line over and through which the voice travels.

The ambition of all telephone engineers is to minimize resistance in lines and instruments to the lowest working margin, and here, you will observe, is an extra resistance of two coils in the circuit that are for a moment useless, i. e., the secondary of the induction coil at the receiving end, and the receiver at the speaking end. Devices were made on long distance lines at one time in the form of switches or shunts, that either party could cut out the extra resistance at each end, but the added trouble made it much of a nuisance, and I think it is no longer customary. The winding in the secondary of the induction coil at the receiving end, and the receiver at the speaking end, are the only parts of the telephone circuit that are in constant use.

These improvements just noted fitted a long felt want of others that were just as much needed to make successful telephone exchanges, were a little slower in development. Take the magneto-bell, for instance. It was first introduced in telephone exchange work about 1889, in a very crude and inconvenient form. At present it has almost entirely taken

the place of the battery call used at first. Numerous little devices that go to make up a perfect telephone exchange equipment have since been invented and patented, many of them within the last five or six years, as the perfect automatic telephone switch or hook, the yoke, the yoke bang your telephone upon, with the ingenious devices of shunts throughout the belt.

Greater than these, perhaps, was the adoption of the multiple switch boards in the practical exchanges. One in Chicago is said to have cost \$100,000.

Finally, then, the slow development of telephone service, if we will have it, in this country, laying aside questions of monopoly and patents, can be ascribed to the early need of auxiliary inventions, which, of course, could only be shown by the developments of the hour and the art. Today we go into a neat, comfortable booth in Chicago or Milwaukee and converse with our distant business acquaintance in New York or Boston with as much ease for more so as I convey my words to you this evening, with a good opportunity for the listener to "talk back."

Coming down to the operation of a modern exchange, one well informed electrician says that the following requisites "The lines entering it must be provided with means for attracting the notice of the operator, with convenient attachments for making connections with the operator's circuit and with other lines, and with means for notifying the operator when a conversation is finished. The operator must be equipped so as to make not only to make connections between different lines, but also to call subscribers and, in multiple banks, to test the lines before making a connection, in order to ascertain whether they are engaged or not."

In nearly all cities of any importance throughout the United States and Canada and even in South America, Mexico and the old world, the Western Electric company's multiple switch-board is used, or else adaptations or modifications of it, and it is today considered the par excellence for telephone switching. It is composed of any number of sections, arranged as to form one continuous series of lines, or as to form two or more independent series, or as to form a combination of the two. Each section has duplicate lines, terminals at each end, and in any other section, arranged in convenient form to be reached by the connecting plug of the operator's circuit. The telephone equipment that these lines carry in service can be easily told by a silent battery test, even when the line desired terminates at the opposite end of the board.

In a well-constructed modern, thoroughly equipped telephone exchange you cannot hear the operators talk, no matter how

and he is made happy, but the broker in New York must be in similar surroundings if he will still have to patronize the booth.

Each telephone exchange in the larger cities is arranged to furnish long-distance service, and when this service is arranged for it goes into either a separate switch board or into a separate section by itself, under control of special operators. Long-distance instruments are entirely different from the ordinary kind, and the utmost care is given and no expense is spared to make all the details in construction and service as perfect as possible. Of course the line wires are copper double lines. The New York Chicago wire is the longest telephone circuit in the world, about 900 miles. The wire is No. 8, B. W. G., weight 435 pounds to the mile, and has a resistance of 236 ohms to the mile. The estimated total weight of copper is over 400 tons. The line through to Boston is over 100 miles long, and conversation can be carried on in a whisper. Thirty-five foot poles are mostly used, set 100 feet apart, through the country and 100 feet in towns. They are all set six and a half feet in the ground. Cross arms are the pin of the usual W. U. size and are all of the same length. Every tenth pole is provided with double cross arms carrying transposition pins of the same size and position glass, and the circuits are uniformly transposed at this distance to avoid inductive disturbance, etc. All the exchange apparatus is connected in duplicate. Special double spring jacks and twin plugs are provided. A device known as the selector coil is introduced as an equalizer whenever resistance or impediments are not evenly divided. Experience has shown that one imperfect connection, when connected with a perfect one, will make the whole noisy and difficult to talk over. By making the connection through a repeating coil the trouble is lessened. A quiet line change is obtained. The standard repeating coil used in the United States is composed of a closed coil, a number of fine wires, similar to those used in the induction coil. One half of each coil is wound in a coil, the other half in a spiral. The wires, there being four coils, are wound in a spiral, the other half in a spiral. The resistance of the line is about 45 ohms less than the outer, which is about 15 ohms less than the inner. The wire used is No. 8, B. W. G., and there must be as many as 1000 turns in all. Duplexing, multiplexing and simultaneous telegraphy and telephony is being done, but is hardly out of the experimental stage. Duplexing is being done, but is hardly out of the experimental stage. Duplexing is being done, but is hardly out of the experimental stage.

THE CLUB

The Workingmen Now Have Theirs Opened For General Use.

Library Is Well Stocked With Literature Interesting to Labor.

Different Unions and the Assembly Will Maintain the Club.

The opening of the Union club rooms in the Clark block last Wednesday evening marks an era in the history of organized labor in Duluth. For several years the idea of having a place where the union men and their friends could meet for recreation and educational purposes had been talked of and everyone conceded the desirability of the plan. No one, however, seemed willing to take the lead in agitating the matter and it remained a vague ideal until President Alfred McCullum, of the Federated Trades assembly, backed up by the union members of that body, secured the appointment of a committee to devise a plan for the club. The committee consisted of J. W. Nelson, J. H. Baker, Charles Leitz, James McDowell, Henry Dwan, Gus Olson, Fred Leimberry and a score of others.

With all this support the new Union club is bound to flourish, and social economists see in its inception a step also towards the uplifting of the old sand-bags of the assembly, men who have been identified with the union movement for years, are working with unflagging zeal for the new institution. Among the members are J. W. Nelson, J. H. Baker, Charles Leitz, James McDowell, Henry Dwan, Gus Olson, Fred Leimberry and a score of others.

Music advanced thought movement has led to the appointment of a committee to arrange for a regular lecture course in which speakers will be selected to give the needs and benefits of organized labor. And above all, new men are coming to the front, proving themselves as active and enthusiastic as the men who have been the backbone of the union movement. The present officers of the assembly who took office Jan. 1 for the ensuing six months are: President, J. W. Nelson; vice president, J. H. Baker; secretary, Charles Leitz; recording secretary, James McDowell; financial secretary, J. H. Baker; and the board of trustees, J. W. Nelson, J. H. Baker, Charles Leitz, James McDowell, Henry Dwan, Gus Olson, Fred Leimberry and a score of others.

At the business meeting the following officers were elected:
President, Guy Ireland; vice president, Elby Gridley; secretary, Ora Gridley; corresponding secretary, Margaret Cortland; treasurer, Marshall Tennis; chairman of membership committee, Olive Todd; chairman of music committee, Lottie Norris.

A very interesting Shakespearean program is being prepared by the Olympic society for next week. Some outside talent has promised to assist, and the program will doubtless be very interesting. Among the numbers will be selections from "Shakespeare" by Mrs. d'Automotive, some selected from Shakespeare, a talk on Shakespeare and his home, "Shakespeare on Avon" by Mr. Lohr, representations of the characters, Elsie Prescott. A great effort is being made to have the program a success, and all visitors will be welcome.

Most of the pupils who are ill are getting along nicely, and Mr. Raymond and his family at St. Luke's hospital, will soon be out again.

The Cleo class has given a photograph of the Forum, five feet three inches by two feet eight inches, ordered from Gustaf Pahl, Tome, Italy, as a gift to the school. The picture is very beautiful and is certainly a work of art.

It is the desire of the teachers and pupils to ornament each room in a manner characteristic of the subject taught there and with that object in view several statues have been placed in the Greek recitation room, among them the statue of the Apollo Belvedere.

The daily papers have kindly consented to furnish a copy of each issue to the school. They will be on file in the High School library.

IS IT CURABLE?
A Question Often Asked By Those Afflicted With Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.
People often become afflicted with piles and ask some old "chronic" who has always persisted in the wrong treatment, and naturally he discourages them by telling them that their case is hopeless. They in turn discourage others, and thus a disease that can in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.
Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors in this country how large, allays the inflammation and stops the itching or itching at once.
Thousands who had resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure—in a number of instances persons who had spent months in a hospital under a pile specialist.
It is a remedy that none need fear to apply even to the most aggravated, swollen and inflamed hemorrhoidal tumors.
If you are afflicted with this stubborn disease you can master it and master it quickly.
This remedy is no longer an experiment, but a medical certainty. It is man-

New York, Jan. 18.—Ex-President Harrison tonight announced that he and Mrs. Dimmick are engaged to be married. The marriage will not take place until after Lent. The general will remain in town until Sunday.

Mr. Tibbits, Gen. Harrison's private

secretary, made the statement to a large crowd of politicians at the Fifth Avenue hotel that the general had authorized the announcement of his engagement to Mrs. Dimmick. Mr. Harrison will probably leave for Indianapolis on Monday. During the life of Mrs. Harrison, her aunt, Mrs. Dimmick practically

governed Mr. Harrison's household in Indianapolis and directed the household affairs of the White House during the period that Mrs. Harrison was ill. At all state functions she received with honor, and she has been a constant attendant at the White House since she was 16 years of age, tall and a strikingly handsome woman.

Now with me I plan or shine, but it's about as cheerful a place as a cemetery to do your courtship in. If you're selecting a place to spend your courtship, you'd better select a place with your best girl, but, on my honor, there's nothing in it. I don't see how the coldest, driest winter nights in the world can be so much more comfortable than the weather a bit. Now look at your trunk, along where you were a night in June."

HIGH SCHOOL NOTES.

Physics Class Discussed the Effect of Boiling Water.

Little of interest has happened at the High School during the past week, the physics class a spirited discussion was held as to whether it improved the water to boil it. One student maintained that all impurities in it were thus destroyed, and another that whatever part of the water had originally been pure, escaped in steam if it were boiled, and therefore only the "fish soup," as he expressed it, was left.

Owing to the illness of so many pupils, and also teachers, the regular debates have been discontinued for the rest of the first semester.

On Thursday the regular rehearsal of the Glee club was held, and on Friday a special chorus from the Musical society gave a selection, entitled "The Prayer." In the afternoon the regular meeting of the Adelphe society was held. The program was a "patriotic" one, and proved very interesting. It was closed with a short, it being the regular day for electing officers. It was as follows:

INDIANA TRAMP'S REST

In the northern suburbs of Kokomo, Ind., stands an abandoned boiler factory building that for several months past has been in possession of tramps, says the Indianapolis Journal. The structure is converted into a hotel for the accommodation of the traveling tramp population, a furnace being provided in the corner of the building for cooking, benches for tables, and straw cots for sleeping quarters. More than forty of these tramps have been quartered over night at one time in this place, which has earned the title of "Tramp Rest." They have a regularly installed cook and housekeeper, a growler runner, forgers and beggars, and it is, in short, a veritable paradise for the "Weary Wanderer" and "Destitute Duffer."

Every night during stormy weather the building is full of them. Occasionally they get into a quarrel, and the police do not molest them as long as they behave themselves. They have been known to pay for their quarters to the city this way: They keep them over night in jail.

BEAUTES OF REMINISCENCE.

In January Ladies' Home Journal Rev. Charles H. Parkhurst, D.D., in an admirable article on "The Memories of Our Childhood Homes," writes that "Reminiscence makes us little even when we are old, and helps to keep us pure and fresh with the springtime that was in us a score or a generation of years ago. A boy can never become utterly bad so long as there remains with him a memory of his father and mother in the act and attitude of prayer. The time may come with the hardening and chilling process of the years when he will himself cease to pray, but from the canvas long ago painted there will never fade the figures of those, now asleep, whose heads were seen day by day bent in humble, confident worship, and who in inspired priestliness laid the morning sacrifice upon the family altar; and the memory of father's and mother's prayer helps, at any rate, to keep alive in us our own possibilities of prayer."

"The most natural parts of our lives we live when we are children, and there is always rest and purification in looking back into touch with them. When the burdens press a little heavily, and the fire is kindling underneath, the wish will sometimes flash itself that we might be back again among our dear ones, and say: 'We do not understand it very well, but there is something gone that we would dearly love to have back. Those may seem to have been rather unproductive afternoons that we used to spend in the garden, listening, in the pauses of our merry-making, to the rain patter on the roof, and we so carelessly, under our feet, but our life means more even today because of them and because of our memory of them.'"

MONROE

Senator Davis Submits a Favorable Report on His Resolution.

Scope of the Doctrine Extended and Very Forcefully Stated.

Hines Railroad Granted Right of Way Through Indian Reservations.

Washington, Jan. 20.—Unusual interest attached to the Senate proceedings today owing to anticipated action on several important questions, including a report from the committee on foreign relations on the Monroe doctrine, and a report from the committee on Indian affairs on the Hines railroad. The report on the Monroe doctrine, submitted by Mr. Davis, was a vote, according to notes given, on his resolution affirming the historic Stanley Matthews resolutions that government should not be held in the money market, silver as well as gold. There was but a scant attendance on the floor, the galleries were crowded during the early hours of the session. Mr. Sherman, chairman of the committee on foreign relations, was an early arrival, carrying a bunch of papers and documents.

A report from the committee on Indian affairs, submitted by Mr. Davis, was also read. ITS FIRST DIVIDEND.

Chicago, Wisconsin & Minnesota Railroad Makes One.

Milwaukee, Jan. 20.—The directors of the Chicago, Wisconsin & Minnesota Railroad company, at a meeting held in this city a few days ago, ordered a dividend of \$50 per share upon 15,000 shares of the preferred stock of the company. The total dividend amounts to \$750,000. The payments, however, are to be in Wisconsin Central improvement bonds at par, but which mature on May 1, 1896. It is intended to cover the period of the company's existence, from March 1, 1886 to March 1, 1916, as accumulating during that time. Payments in bonds are made at 50 State street, Boston, and in New York to W. H. Demarest, Room 278, Washington building, Broadway.

The Wisconsin Central receivers hold 250 shares of the stock, and which are deposited as part security for the \$2,000,000 issue of receivers' certificates with the United States Trust company, of New York. Judge Jenkins this morning gave the receivers permission to receive the dividend and ordered the trust company to produce the stock in order that they may be stamped as paid.

PACIFIC RAILROADS.
House Committee Will Commence Hearings Monday.

Washington, Jan. 20.—The house committee on Pacific railroads today decided to begin hearings next Monday preparatory to framing a plan for the adjustment of the debts of the Central and the Union Pacific to the government. The committee will be composed of the representatives of the Union Pacific and Central Pacific and the California people who oppose a funding bill. The hearings will be held daily, if possible, until all parties in interest have appeared.

Most of the committee's time was spent in discussing the present status of the roads. Some members wanted the roads placed in the hands of the government, while others wanted them to remain in private hands.

After discussing the law under which the roads are operated, the committee decided to begin hearings next Monday.

The indictments against Rinehart and Hanley were upheld on two counts. These counts set forth that from April to November, 1895, the two officials violated the act by giving rebates and drawbacks and that on Oct. 5 of that year they made the payment.

MR. BAYARD'S SPEECHES.

Secretary Olney has transmitted to congress the correspondence with Ambassador Bayard concerning his two speeches in Great Britain, one at Edinburgh and the other at Boston, Lincolnshire, which created so much hostile criticism and provoked the Barrett resolution in congress. Secretary Olney makes no comment, except to say that the state department has not taken any further action in regard to the matter.

Mr. Bayard does not deny the alleged extracts from his speeches which appeared in the English papers and were republished in this country. He merely makes the surprising statement that both speeches were "impromptu," and that he kept no notes of them. He says they were "on many subjects and had no political aspect or motive." In lieu of an exact copy of the speeches Ambassador Bayard has sent clippings from local newspapers containing reports which they made of his remarks. Mr. Bayard says he had no intention of speaking for the public, and was not aware that any newspaper reporters were present. If they were "impromptu" speeches it is remarkable that they were printed in full in England. But, admitting that the English papers were more enterprising than usual and made a complete stenographic report of Mr. Bayard's remarks without his knowledge, the case is not altered very much.

Mr. Bayard's offense does not lie in the fact that the speeches were published but that, as the ambassador from the United States to Great Britain, he made speeches in the latter country which reflected upon the character of the American people and attacked the tariff policy of his political opponents in this country. Mr. Bayard lost sight of the fact that

when he entered the diplomatic service, he should have ceased to play the politician. If a diplomat of any other country should have done what Mr. Bayard has done in this instance, he would have been promptly recalled in disgrace, and he would have been barred forever thereafter from the diplomatic service of his country.

It makes not the slightest difference whether Mr. Bayard's speeches were published with or without his knowledge, nor does it make any essential difference, once whether the statements made by Mr. Bayard in those speeches are correct or not. They contain an attack upon the people of the country which Mr. Bayard represents as ambassador and upon a policy which the United States must maintain for years, and as a diplomatic representative it was in very bad taste on the part of Mr. Bayard to give expression to such sentiments before the people of a foreign country.

A SPLENDID TRIBUTE.

The Herald's dispatches stated the other day that the Cincinnati Commercial Gazette contained an elaborate article by Senator Hansbrough, of North Dakota, honoring Senator Cushman K. Davis for the presidency. As the Commercial Gazette is a newspaper of influence and high standing among the most intensely Republican journals in the country, the friends of Senator Davis have naturally been much gratified that it has opened its columns to such an able presentation of the claims of Minnesota's candidate for the presidency.

In addition to publishing Senator Hansbrough's article, the Commercial Gazette referred editorially to Senator Davis' candidacy in very flattering terms. "Senator Davis," it says, "may be considered as prominent in the galaxy of presidential possibilities. The character, life and geographical location of the man combine with his well known sterling principles to form an exceedingly strong recommendation for highest honors." After stating that there are attractive elementary features in the life of Senator Davis calculated to render the public eye, Presidents Lincoln and Harrison, it adds: "Naturally profound and studious, and patriotic, and alert in his country's interest, as shown by his career at the front during the late war, and his effective work since the close of that conflict, the man is well fitted for not only the duties of the presidential office, but to receive the highest confidence of the people. His Republicanism has never wavered. Of robust physical and mental health, in the prime of life, ripe with experience which has developed the best of his latent qualities and brightened his far-seeing judgment, Senator Davis stands prominently in the front, and although not assiduously seeking the nomination, he will undoubtedly grow as he is further considered in the St. Louis convention.

On several occasions Senator Davis has displayed wonderful tact and diplomacy in not only dealing with grave questions while governor of Minnesota and as United States senator, but his advice and assistance have frequently been sought by the heads of the national administration. Of a superb logical turn of mind, a lawyer of high attainments, and one who has engaged in the deepest thought among the counselors and legislators of the country, Senator Davis possesses some qualifications not prominent in the characteristics of other aspirants.

When the great qualities and the public record of Senator Davis become familiar to the Republicans throughout the whole country, the sentiment in his favor will be still further increased. By the publication of such articles as these contained in the Commercial Gazette, his thorough equipment for the presidency and his availability as a candidate this year will be demonstrated very effectively.

THANKS THAT ARE DUE.

The common council last night passed a vote of thanks from the city of Duluth to the St. Paul & Duluth railroad for the use of the road's cars and engines for the transportation of spring water to the city. The council has done well in thus voicing the unanimous thanks of the citizens to the St. Paul & Duluth road, which freely and ungrudgingly, without any expectation of reward, tendered its services to the mayor for supplying the people of Duluth with pure spring water pending the extension of the intake pipe.

IT WAS A GENEROUS ACT THAT THE PEOPLE OF DULUTH WILL NEVER FORGET.

If the city had to pay the regular tariff for this service, the charges would reach fully \$5 a day, so it will be seen that the generosity exhibited by General Mendenhall and his associates is not of small proportions. The people of Duluth are grateful for the friendly spirit which prompted the tender of this facility, and they will not fail to express their thanks in a still more practical way whenever the opportunity is presented.

A NEW INVISIBLE LIGHT.

The report from Vienna that Professor Roentgen, of the Wurzburg university, has discovered a light which, for the purpose of photography, will penetrate wood, flesh and most other organic substances, is wholly credited by men of great authority as Edison. It is certainly one of the most astounding marvels of the science of scientific discovery, and the results must be of the utmost value in medicine and surgery. The story is that Professor Roentgen has been experimenting with light derived from radiant heat by means of Crookes' tubes, and that he discovered the invisible light through which an electric induction passes, whose rays, the product of intense heat, are thrown upon the object which it is desired to photograph.

Results obtained by the professor are described in an article in the New York Journal. He photographed a man's ankle in which a bullet was imbedded, showing the bullet just where it was lodged. He photographed a leather purse,

showing the money in it with perfect distinctness. A human hand was subjected to the rays, and the result was a picture of its bones, with the envelop of flesh only a shadowy form around them. The most startling experiment was the photograph of a young man beside a young woman, which showed nothing but a black, the box disappearing in the picture. These experiments show, if they are correctly described, that the loss of the contact of the molecules of a body, the more penetrating this light, from radiant heat, so that clothing, leather, wood and other substances of comparative freedom of movement among molecules offer no impediment to the progress of this new light, while bones, mineral matter, and other close-packed substances remain opaque and are pictured. The picture, however, is not a negative, but a positive. The radiant heat cannot be described in terms of light, because it is invisible to the human eye. "Invisible light" is a curious connotation, but that is all which can be said about it.

GIVING AWAY FRANCHISES.

The people of Mankato are said to be eagerly considering a proposition by an electric company to give them a lighting plant and a street car line in exchange for the franchise at a certain percentage of the cost. The franchise is a valuable asset, and the company is offering it as a bait to attract the city. The city is in a position to accept the offer, but it is not clear whether the city will do so.

WHAT THEY SAY OF "EOS."

A Great Washing Compound Which is Proving to Be a Boon to Laundrymen and Private Families.

(From National Laundry Journal, Nov. 15, 1895.)
Several of the prominent laundrymen of Chicago have made a satisfactory test of the new washing compound, "Eos," which has been placed before the trade by Messrs. J. S. Kirk & Co., Chicago, and the strong endorsement that has been given it by practical men in the business is a convincing proof of its remarkable merit and value in the laundry.

Space will not permit of mentioning all the good things that have been said about "Eos," but it does about all that can be said to quote a few of the many endorsements it has received from them.
Joseph J. O'Grady, of the Dalby Laundry, 23 East Pearson street, has been testing Eos in his establishment. Speaking of the new washing compound he said:
"We have been trying Eos for about ten days as an experiment and with satisfactory results. It does about all that is claimed for it. It softens the water and lessens the quantity of soap, and it is a great merit. We have found it works well with all classes of goods, not only with flannels and colored goods, but even with such delicate fabrics as curtains."

Mr. O'Grady further stated that he was about to order a quantity of Eos and try it on a more extensive scale.
The following is the endorsement of Munger's Laundry:
Chicago, Ill., Oct. 15, 1895.
Messrs. J. S. Kirk & Co., Chicago, Ill.:
Dear Sirs:—We have tried your new washing preparation, Eos (Elixir of Soap), on both colored silks and flannels, and we have been very much pleased to find that it worked to entire satisfaction. The silk did not run, and came from the laundry bright and clean; nor did the flannels shrink in the least. Eos made the water soft and velvety. We regard it as a preparation of very great merit, and we are pleased to endorse it for general use as a most necessary article, and we may say further, as an all-round washing preparation it is the best we have ever used.

(Signed) Munger's Laundry Co., S. C. Goss, Manager.
The following is what the Excelsior Laundry company has to say of the good work done by Eos:
Chicago, Ill., Oct. 14, 1895.
Messrs. J. S. Kirk & Co., Chicago, Ill.:
Dear Sirs:—We have been making a most thorough and exhaustive test of your new discovery, Eos, for general laundry work, and we have come to the conclusion that it is by far the best article we have ever met with for washing colored goods, and cotton goods come out white and clean. It washes silks beautifully, and makes all washes not only washed clean, but come from the wash soft and fleecy as new, without shrinking. We never used a preparation that could hold a candle to this in washing flannels.

We also note the fact that printed fabrics did not run a particle when this preparation was used. It breaks the laundry work, and we have come to the conclusion that it is by far the best article we have ever met with for washing colored goods, and cotton goods come out white and clean. It washes silks beautifully, and makes all washes not only washed clean, but come from the wash soft and fleecy as new, without shrinking. NEW STOCK BOARD.

Chicago's Mineral and Mining Stock Exchange.

Chicago, Jan. 21.—In the presence of several hundred guests and members, the Chicago mineral and mining board was formally opened today in the New York life building on LaSalle street, midway between the board of trade and the Chicago stock exchange.

The mining board has a membership of a number of men, however, are non-residents of Chicago. Trading on the exchange will not be confined to mining stocks, but will include all the original plans, and the Salvation soldiers will do well to remember that no army in heaven or earth can exist with prevalent insubordination. The soldier's first duty is to accept the authority of the officers regularly appointed over him. If the Salvation soldier imagines there are any exceptions to this rule, he is greatly mistaken, and the consequences will be his own responsibility.

The Platt men in New York city had a noisy and characteristic meeting last Thursday night, and the members of the right hand man, Edward Lauterbach, as president of the Republican county committee of New York. Platt appears to have things his own way in the Republican party of New York city and county. The New York Tribune rather testily remarks that a picked delegation of Tammany Hall experts were present at this meeting to take lessons in "running the organization."

Speaker Reed has secured the delegates from several Philadelphia districts to the Republican national convention which will be held in St. Louis, June 16. He is reported to have good prospects of electing a part of the delegates from Alabama and Louisiana. Notwithstanding the defections in New York caused by the Morton movement, he seems to have strong and powerful friends in the old "Keystone State."

The King of Ashantee has 323 wives. This says the Boston Transcript, may account for his willingness to yield to Great Britain's demands. Hardhearted indeed would be the man who would welcome war with the knowledge that his death alone would cause 323 happy wives to become widows. The king is a thoughtful man with strong family affections.

The St. Cloud Journal-Press says that if Stearns county brings forward a candidate for delegate to the Republican national convention it will be C. F. Hendry, of Sauk Center. Mr. Hendry would be a good representative of the Sixth district.

Mayor Strong lectured the New York tailors at their annual dinner the other night and said they ought to use more American cloth. Tailors often, he said, couldn't tell the difference between English and American cloth. He knew one tailor who bought American goods for England, and he thought Mayor Strong, said them to him.

The Minneapolis Journal, carried at The Herald's expense, of its determination to belittle the sentiment in favor of Senator Davis for president, says The Herald "doesn't know very much about state politics anyway." Possibly not, but The Herald knows enough about state politics to see through the political game that the Journal is playing.

Register today. If you do not register you cannot vote for mayor and aldermen. It makes no difference whether you voted at the last election. Every person must register anew for the coming election. You can register at any time before 9 o'clock tonight. Do not delay.

Francis R. E. N. Y. Z. Woodward, of Minneapolis and recently "captain" in Cuba, is lecturing on "My Experiences in Cuba." For variation, he might substitute a lecture on "How I Held Myself Up on Rice's Point."

The Herald is indebted to Congressman Towne for a copy of the official correspondence in relation to the boundary controversy between Great Britain and Venezuela, accompanied by an excellent map of the disputed territory.

A bank cashier in Missouri was paid \$300 salary, out of which he had to hire a clerk, and yet the directors of the bank are astonished to find that he is short \$500.

"Popo" Gooding, of Minneapolis, has gone to Venezuela. If there is going to be a fight, "Popo" means to be right in it.

Register before 9 o'clock tonight, or you may lose your vote.

THE ACTION JUST.
Cloquet, Minn.—The action of the grand jury in St. Louis county in indicting the general manager of the water supply company for manslaughter is surely just. If the water company is responsible for the sickness and death which has resulted from the typhoid fever epidemic which has been raging in the city, the grand jury's action is surely just.

A SENSIBLE DELEGATION NEEDED.
St. Cloud Journal-Press. Mr. Davis is a sensible delegation needed. The grand jury's action is surely just. If the water company is responsible for the sickness and death which has resulted from the typhoid fever epidemic which has been raging in the city, the grand jury's action is surely just.

WENTZ DISMISSED.

After Being Held For Months He Is Free.

The last remnant of the January term of district court came up before Judge E. W. Wentz, formerly Duluth, in room 2 in the shape of a motion to dismiss the grand larceny case against Charles L. Wentz, formerly Duluth, who was arrested in the Metropolitan Life insurance company. The defendant was accused of forcing, also, and after being held some time, he was tried and acquitted. Then he was held on the grand jury charge, the county attorney continually getting off the trial. Wentz's attorneys were angry about this, and several times two of them nearly came to blows with the hot-headed states attorney, who threw one of them out of his office and threatened in open court at one time to utterly annihilate another. First of waiting for a trial the defense this morning moved for a dismissal on the ground that Wentz had not received the speedy trial which the law allows the accused of crime. The September, November and January terms having passed without a trial, Judge E. W. Wentz dismissed the case, so Wentz is a free man.

All the other matters not otherwise disposed of were continued over the term in a body.

"Song of the Bell," at Turner hall, Wednesday night. Admission, 50 cents.

A Valuable Arm.

John Tyrakowski wants \$1,117 from the Duluth, Missoula & Northern. He alleges in a suit brought in district court this morning that Oct. 4, 1895, he was unlawfully made a sudden start without notice and he fell upon the track below. His arm was so shattered by the fall that amputation was necessary. John Jensen, Jr., is the attorney.

The plaintiff in the case of Mary Clarkin et al against the Biwabik Lumber company has moved for a new trial. The defendant in the case of Devon Wise et al against the Capital Land company and of against the Duluth Street Railway company have appealed to the supreme court. The assignee for the Duluth Land and Loan company has filed a statement showing assets of \$20 and liabilities of \$20.

Papers Filed Today.

Three papers filed in the register of deeds office this morning told the tale of the liquidation of the West Duluth Light and Water company. Pursuant to an order from the United States court, Master in Chancery H. J. Shipman sold the plant to William K. Merriam for \$25,000, who then transferred it to the new company, the Duluth Water and Light company. A trust deed for \$25,000 first mortgage sold bonds were then executed running to the St. Paul Title Insurance and Trust company. It also was filed this morning.

CHOSEN

Chairman J. R. Carey Has Appointed the Republican City Committee.

Henry Truelsen Will Hold His First Campaign Meeting This Evening.

R. S. Lerch Has Decided to Run Independent in the Third.

J. R. Carey, chairman of the recent Republican city convention, has named the following city committee: Members-at-large, O. W. Babwin; First ward, L. C. Harris; Second ward, A. Shephard; Third ward, W. M. Abrahamson; Fourth ward, Herman H. Appel; Fifth ward, Thomas Colley; Sixth ward, Gust Bergquist; Seventh ward, L. A. Barnes; Eighth ward, Robert Cochran. The chairman will be elected by the members of the committee, Judge Carey having left it that way.

A meeting of the citizens' committee was called for today afternoon to be held at 302 Palladio building. A number of campaign matters will be talked over and the all-around situation especially will be discussed.

Henry Truelsen has already begun his campaign. Last evening his headquarters were at the city hall. This evening the first meeting of the Truelsen campaign will be held at United States hall.

Next Saturday is the last day upon which petitions can be filed by candidates who wish to get their names on the printed ticket. Consequently there is some talk of hustling.

ALDERMANIC SITUATION. In the second ward it is more than probable that A. J. Barker, the plumber, will be a candidate against Alderman Evans. A meeting in his interest was held last evening and he has quite a following.

Alderman R. S. Lerch will make the run as an independent candidate for reelection from the Third ward. The petitioners who are disgruntled at the nomination of J. W. Towley held two meetings yesterday and in both declared unanimously in favor of the present incumbent. A petition is already in circulation and will be filed before Saturday, which under the law is the last day upon which petitions can be filed.

In the Fourth ward Fred T. Little and August Stalshush will run independently against Alderman Trevillion. W. D. Gordon is said to be coming out in the Fifth, John Dennis and R. C. Sloan are in the field in the Sixth ward in opposition to P. George Hansen. Alderman Cox has just convinced the Sixth warders that his declaration meant business.

In the Eighth ward the opponents of Alderman Mitchell are hustling to get a candidate to run against him.

TO STOP PILFERING.

The Centurion's Jettisoned Cargo to Be Protected.

The tug Centurion, of the United States deputy marshal, whose name has been ascertained, bound for Isle Royale. At Two Harbors she will stop and take on board William Williams, who has also been specially appointed deputy marshal and these two officials, with plenty of grub and camp supplies and equipment, will take up their abode on the island. The tug opens up and navigation is resumed.

They are not going up for pleasure, but have a case of close watching before them, their duty being to prevent by force or otherwise, the pilfering of any of the jettisoned cargo of the steamer Centurion, which went on the rocks at the eastern end of the island late last fall and they are specially charged to look out for the same. The Centurion was wrecked by a party of copper searchers who are said to be at work recovering the jettisoned cargo.

The action in this matter has been taken by the insurance companies, who have invoked government aid to stop any unauthorized appropriation of the property. The record will be commanded by Capt. Joe Cox, and will return about Friday.

MR. WELLES RESIGNS. Yesterday afternoon Mayor Wells received from W. R. Welles his resignation as a member of the board of public works. His health is the cause. Mr. Welles is now at Fort Dodge, Iowa, and is recovering, but he reports the progress of his recovery.

The resignation was not announced to the council last night. A number of candidates are in the field for the vacancy, but the friends of ex-City Engineer Reed claim that he has a clutch on the prize.

L. R. Harris to Speak.

The Law Students' association, of Duluth, is a new organization, but it is a healthy and vigorous one for all that. The interest in it has so much increased that at the next meeting the advisability of meeting twice instead of once a week will be considered. The association is organized for common advancement and assistance, and the meetings are devoted to the discussion of legal subjects. At a meeting held last night there was an animated discussion on the subtle distinctions and boundary lines of the rights and duties of husband and wife. Next Monday night L. R. Harris will read a paper upon the subject of "Frauds." The club asks all students of the law to become members.

THE RUMOR FALSE.

A. W. Hartman Has Not Withdrawn His Bond Bid.

Yesterday afternoon a rumor was circulated around the city hall and the streets that the bid of A. W. Hartman for the \$500,000 of water bonds was to be withdrawn by Mr. Hartman. In his speech accepting the Republican nomination Mr. Allen accused the present administration of embarrassing the incoming administration by accepting the bid, and the rumor was to the effect that because of this statement Mr. Hartman had decided to withdraw the bid and let Mr. Allen and his friends, when they get into office, go ahead and raise the money if they could. Mr. Hartman only returned from the East yesterday and a Herald man called on him today and asked:

"What is the foundation for the rumor that your bid for the \$500,000 per cent water bonds is to be withdrawn?"

"I do not know that there is any foundation for such a rumor—did you know of any such rumor?" said he.

"Is it your intention to withdraw the bid?"

"Not at all. I have never yet failed to carry out any agreement. I have made and I stand ready to take these bonds if the city wishes it. If, however, it would for any reason embarrass the present or the incoming administration, I would withdraw it. I am ready to do whatever will be of most help to the city of Duluth."

Resisted the Inspection.

Yesterday Fire Warden John J. Schinlank called at the residence of Frank McCormick, 221 Seventh avenue west, for the purpose of inspecting the chimneys. He alleges that Frank McCormick, Jr., refused to allow the inspection to be made. In consequence the latter appeared this morning in the municipal court charged with resisting a fire warden. He pleaded guilty and was released on his own recognizance to appear for trial tomorrow afternoon.
